## What's New In Radio Sai?

Radio Sai is a radio station which broadcasts kirtan (Bhajans) in various languages of the world. It was started in 2003 by a group of devotees, who were dedicated to the service of Sri Radha and her associates. The aim was to provide pure bhajan-rich audio in a simple and easy to use format. Features: - Full support for Internet Radio and desktop Gadgets on Yahoo! - Multi-user support - Built-in RSS feed - Built-in media player - Built-in Player Control Panel - Built-in cache for podcasts - Ability to control volume, pause, stop, and forward and back to listen to your favorite bhajans. Release notes: 5.0.1 is a bugfix release. 5.0.0 was released a few days back. \* Change Log: 5.0.1 - bugfix release \* Downloads: \* Windows and Mac OS X versions: RADIOSAI-5.0.1-WIN-EN.zip - Windows RADIOSAI-5.0.1-MAC-EN.zip - Mac OS X Today's top download is CHARM IDE Tools by Mere (8.1MB) with support for Widget Engine, which enables you to quickly create and publish web widgets. It can also be used to quickly create and publish desktop widgets and gadgets, including Microsoft Gadget and Yahoo! Widget Engine. The package includes a bunch of useful programs such as an RSS feed reader, email client, web server, and much more. The package is rated on our homepage as a “very good” product. You can install it by clicking on the button below. Windows / MacOS / Linux What is this? Dependencies
